Serve God, Save The Planet: A Christian Call To Action

Synopsis

Not long ago, J. Matthew Sleeth had a fantastic life and a great job as chief of the medical staff at a large hospital. He was living the American dream—until he saw an increasing number of his patients suffering from cancer, asthma, and other chronic diseases. He began to suspect that the Earth and its inhabitants were in deep trouble. Turning to Jesus for guidance, Sleeth discovered how the scriptural lessons of personal responsibility, simplicity, and stewardship could be applied to modern life. The Sleeths have since sold their big home and given away more than half of what they once owned. In *Serve God, Save the Planet*, Sleeth shares the joy of adopting a less materialistic, healthier lifestyle, stronger relationships, and richer spiritual lives. With the storytelling ease of James Herriot and the logical clarity of C. S. Lewis, Sleeth lays out the rationale for environmentally responsible life changes and a how-to guide for making those changes. “Creation is groaning. And Matthew Sleeth has responded. *Serve God, Save the Planet* is not an alarmist call of despair, but a hopeful invitation to re-imagine the way we live. Sleeth’s words have the urgency of an ER crisis coupled with the deep faith that the Church is ready to join God in healing the wounded world.” --Shane Claiborne, activist and author of *The Irresistible Revolution*.

Though I've gone on record as a skeptic of global warming and of the catastrophic man-made climate change that is so much in the news today, this certainly does not indicate that I care nothing for the environment. If anything, the reading I've done on the subject of global warming, while failing

to convince me, has reinforced in my mind the importance of caring for the planet God has given us. I have become interested in a Christian response to environmental issues and decided to read a couple of books on the subject. One that was recommended to me is *Serve God, Save the Planet* by J. Matthew Sleeth. Not too long ago, Sleeth was rising through the ranks as chief of the medical staff at a prominent hospital on the East coast. He began to see more and more of his patients suffering from illnesses such as cancer, asthma and other chronic diseases. He began to suspect that there were environmental issues involved. Somehow the earth and those who live on it are in trouble of their own making, he concluded. Sleeth eventually quit his hospital job to focus on writing and speaking about environmental issues, seeking to do so from a distinctly Christian point-of-view. He sold his large home and moved his family into a much smaller one; he evaluated his family's lifestyle and found ways of drastically reducing their environmental impact. And then he wrote this book. "Serve God, Save the Planet asks the following questions: How can I live a more godly, equitable, and meaningful life? How can I help people today and in the future? How can I be less materialistic? How can I live a more charitable life? What would happen if I led a slower-paced existence? What is the spiritual prescription for depression, anxiety, and anger? How can I become a better steward of nature?
