GMAT® Test Prep:Â GMAT® Secrets Study Guide: Complete Review, Practice Tests, Video Tutorials For The Graduate Management Admission Test

Synopsis

Includes Practice Test Questions and 114 Step-By-Step Tutorial VideosGet the test prep help you need to be successful on the GMAT.The GMAT is extremely challenging and thorough test preparation is essential for success. GMAT Test Prep: GMAT Secrets Study Guide is the ideal prep solution for anyone who wants to pass the Graduate Management Admission Test.Not only does it provide a comprehensive guide to the GMAT exam as a whole, it also provides practice test questions as well as detailed explanations of each answer.GMAT Test Prep: GMAT Secrets Study Guide includes:A thorough and detailed review of the GMAT examA review of the analytical writing assessmentAn in-depth look at the integrated reasoning testA guide to the quantitative testAn analysis of the verbal testComprehensive practice questions with detailed answer explanationsIt's filled with the critical information you'll need in order to do well on the test: the concepts, procedures, principles, and vocabulary that the Graduate Management Admission Council (GMAC) expects you to have mastered before sitting for the exam.The guide is full of specific and detailed information that will be key to increasing your GMAT score. Concepts and principles aren't simply named or described in passing, but are explained in detail. The guide is laid out in a logical and organized fashion so that one section naturally flows from the one preceding it. Because it's written with an eye for both technical accuracy and accessibility, you will not have to worry about getting lost in dense academic language.Any test prep guide is only as good as its practice questions and answers, and that's another area where our guide stands out. Our test designers have provided scores of test questions that will prepare you for what to expect on the actual GMAT test. Each answer is explained in depth, in order to make the principles and reasoning behind it crystal clear.We've helped thousands of people pass standardized tests and achieve their education and career goals. We've done this by setting high standards for our test preparation guides, and our GMAT Test Prep: GMAT Secrets Study Guide is no exception. It's an excellent investment in your future.

Customer Reviews

I got this book to prepare for application for my Masters - so far GMAT is the most complicated and scary part of the process. Overall impression of this book is that it is a good quality guide with a lot of substance and sense. I feel like it has a lot of value, I will explain why:+ It outlines the GMAT as whole, explains how everything works and what one is to expect, and what kind of preparation is needed, in general.+ It is written in a clear and professional language, yet it is very easy to relate to and understand.+ It includes guidelines to the analytical writing assessment, and it is in-depth.+ It comprehensively explains the reasoning test and gives examples.+ It includes guidelines to the quantitative test as well as the verbal test+ I appreciated the in-depth explanation of different issues and subjects. The practice questions are very helpful to really check your understanding and see if you can move forward, or need to go back and review material. All the correct answers are explained, so I can check the logic and reasoning I have used while answering the questions and see if I understand the whole approach and logic behind it correctly.Conclusion: though it might not be the only guide/study book I will use to prepare myself for the GMAT test (I just started) - this one is definitely helpful, and I am sure I will come back to it over and over again. Overall, an honest guide, and I am very glad that I gave it a try.I received this book in exchange for my honest and unbiased review. I am under no obligation to provide a positive review and receive no incentives or rewards or compensation for positive reviews. My aim is to highlight features and drawbacks that I would want to know about as a buyer, for the benefit of other people. I hope this review will be helpful to others. Please ask questions about this product, if you have any - I will do my best to answer them.

I am gonna start my second masters degree that requires gmat score. So i saw this book right in time.When i saw on it "video tutorials" i thought it will come with cd. But it is not, instead it comes with video link of their website and code for it so you can watch whatever subject you don't understand by reading.I really appreciate it, since English is not my native language, that's why i am

sometimes having hard times with understanding some certain terms. I just started reading it, but I can say that the book is written very well, easy to understand. It comes with a lot of practice tests. I will update my review in the future to tell you guys how this helped me in my GMAT score (or did not). UPDATE: I really started to study it. And when I wanted to update my review, I saw that the pictures I uploaded are not there (I don't know why). That's why I'm gonna put new ones. Sorry about the notes on it, I just needed to translate some words into my language. For now, I am gonna attach some pictures so you can see the content and have some idea how it is inside of it. P.S. I received this product in discount/free in exchange of my honest and unbiased review.

This book is bound/printed very well, the pages have a nice weight to them and I have no concerns about it falling apart or not holding up to long study sessions. The publisher includes an offer to receive a free DVD with additional material as well as online resources that compliment the material in the book. It is written not just to provide you a means to study the information but also includes many practice exams and problems so that you can check your progress and find out where you are struggling before you end up finding out the hard way in the middle of your GMAT! If you are getting ready to sit for a GMAT this product is a reasonably priced tool to help you prepare. Whether you are looking for additional study material or a collection of challenges and tests to see how ready you are, you can't go wrong with this one! This product was purchased with a promotional discount provided by the seller in exchange for agreeing to share my opinions and thoughts on the product.
