Seeds In The Heart: Japanese Literature From Earliest Times To The Late Sixteenth Century

Synopsis

Donald Keene employs his prodigious wealth of knowledge, critical insight, and narrative aplomb to guide readers through the first nine hundred years of Japanese literature—a period that not only defined the unique properties of Japanese prosody and prose but also produced some of its greatest works. Covering courtly fiction, Buddhist writings, war tales, diaries, poems, and more, *Seeds in the Heart* explores a vast and variegated treasury of writings. Detailed textual examinations of classic texts—from the *Kojiki* to *The Tale of Genji*, from *The Pillow Book* of Sei Shōnagon to Zeami's *Nō* plays—allow students, lay readers, and scholars a new understanding and enjoyment of this great literature.

Customer Reviews

Even if we make allowance for the impressive multi-volume literary histories of Konishi Jin'ichi and Kato Shuichi (as the first reader [1997] has noted), Professor Keene's four-volume opus is surely now the standard English general survey of Japanese literature. *Seeds in the Heart*, the last volume to be published, covers the very earliest period -- from the *Record of Ancient Matters* (712) to the "Late Sixteenth Century," spanning some 9 centuries. That leaves 3 volumes for the next four centuries, an indication of the author's personal leanings. Of course, we all have our own preferences. Since I happen to be interested in Tale Literature (*setsuwa*), I feel that out of the book's 1265 pages devoted to the early period, *setsuwa* might have been given a bit more space

than the 41 pages between p. 568 and p. 609 (see below). Others will doubtless have a different take; so I think it will be useful to the potential buyer/reader to see what is offered in the table of contents, along with the pagination.

... in short, a highly informative, useful resource which I recommend to anyone curious about early Japanese literature.

Keene has written a book that, though using an immense range of Japanese scholarly sources, is easily accessible to the interested reader. His narrative style is clear and appealing. He not only describes the Japanese classical literary canon, and quotes large chunks of it, but also evaluates the poetry and prose he treats with a careful and cultivated aesthetic sensibility. The book is a delight to read. Nothing like it exists on Japanese literature in the English language.

Konishi Jin'ichi's literary history is designed for specialists, and Kato Shuichi's similar 3-volume history does not have the depth and breadth of Keene's book with its characteristic attention to detail as Kato wrote his study mainly with Japanese readers in mind. In short, 'Seeds in The Heart' is the culmination of a lifetime's scholarship, and provides an extraordinarily moving feast for readers

Donald Keene's "Seeds in the Heart" is the first of his 4 volume History of Japanese Literature. This one covers the works from the beginnings of the said literature till the late sixteenth century (Momoyama Period). The other 3 are about literature of the Edo period ("World within walls") and the post-Meiji restoration pieces, with 1 volume for prose, another one for the rest ("Dawn to the West"). Keene's book is an authentic Tour de Force, and arguably, the best History of the Japanese
