## Customer Reviews

So-so for the scrambled paragraph section. Very little logical reasoning questions. Typical of other prep books, reading comprehension strategies weren't that helpful and overly broad/general. All in all, a tad too expensive for the amount of actual questions and substance.

This is a good book and is very helpful to students who want to practice and get stronger in the verbal section. I would recommend this book to everyone who is studying for the SHSAT

Really good verbal practice. Definitely helped to supplement the other books.

Intense training! I feel much better prepared
