Parenting After Divorce For The Single Daddy: The Best Guide To Helping Single Dads Deal With Parenting Challenges After A Divorce

Synopsis

Do You Find It Hard To Parent After A Divorce? Is Your Child Finding It Hard To Cope With The Divorce? Are You Having A Hard Time With Your Children And Ex-Wife? After a divorce, parenting is a real challenge. Divorce would impact the children tremendously because it changes their viewpoint of life. The two people whom they depend the most are separated. For a single father, this is difficult because his entire life is focused on being a good father. He has worked hard to provide for his children and he finds it hard to deal with their reaction. In *Parenting After Divorce*, Nick Thomas shares his experience as a single father. He has collected advice from other single fathers and written a book that encompasses many considerations that single fathers must make. You would learn to become a better parent in the future and help your children cope with the divorce better.

Benefits From PARENTING AFTER DIVORCE

- Understand The Impact Of Divorce On Children
- Steps Children Take Towards Accepting The Divorce
- How To Have Your Parenting Affairs In Order Before You Start Dating
- How Divorce Impacts Children Of Different Ages
- Common Parenting Mistakes Single Fathers Make
- The Different Parenting Models
- The Importance Of A Parenting Plan
- Why You Shouldn't Blame Your Ex-Wife
- How To Introduce Step-Parents In The Future

Imagine being able to deal with the divorce easily and parent your children well. They would grow up as well-adjusted and responsible children despite the difficulties of the divorce. Click **LOOK INSIDE** to learn more about this book |

Customer Reviews

With more than 160 pages and a lot of useful information, this book definitely deserves 5 stars. It contains all aspects of a divorce: Introducing your kids to a new partner, getting over the blame

game, having a plan, and dealing with other facets. It's a book that covers more than just one part, and I think it would be a good, helpful book for those in the process of a divorce, or in the aftermath. Divorce is more complicated and psychologically damaging than some care to admit, and it helps to have books like this out there.

Divorce is never an easy process because everyone accepts it differently. Most times people focus on how the children are going to take the process, but hardly ever is the focus on the dad. Everyone always assumes that dads have everything figured out. I love this book because it shows a different side of divorce. It is important to have guides that help single fathers trying to cope with a divorce and the struggles that come with it. Amazing guide!!

I liked how organized the discussion on divorce was presented and what are the things a single dad/parent can do to minimize the impact of divorce on the children. This is a useful book for parents going through a divorce and especially for the single dad who is faced with dealing with the children particularly when beginning to date again. The insights and advice given in a straightforward approach are useful to overcome the challenges of the aftermath of divorce. Highly recommended read!

This book is very important to all single daddy. With this book, you all know all you have to do on your children, and how to deal with parenting challenges after divorce. This book teaches you how to tell your children about the divorce, having parenting plan, seeking closure for the sake of your children, and many other tips.

It is very important to keep the lines of communication open between the dad his children, new partner, and ex-wife. Being from a home with a divorce I know first hand how painful it can be for the children involved. This book will help out the children and make everyone live a little bit more comfortably through a divorce.
